**APPLICATION:**

*Empower Centers is committed to addressing the growing chiasm between the demand and availability of specialized, child & adolescent, providers and programs through our Provider Training Programs. We recognize that those working in underserved, rural or low-income areas often have limited resources that could make funding Provider Training Programs untenable. The Provider Training Scholarship Program is made possible through the generosity of charitable donations and grants. These funds are limited and will be awarded to those provider groups & organizations serving in underserved, underfunded and/or isolated regions of Colorado.*
